NEW **M18** CORDLESS MITRE SAW

**Good
Woodworking**

**Andy King reviews the NEW Milwaukee®
M18 SMS216 Cordless Mitre saw.**

You may well recognise this saw from a bygone era as it's based on the highly successful Elu PS184, and indeed, it's a saw still available in various guises, including Milwaukee's® own MS 216 SB, but this is the first time it's been free of the need for a power cord.

The overall capacity is a tad shy of other machines where 300mm or above is the norm, but at 270mm, certainly enough for most work, especially if you are working standard construction timbers.

The compound tilt also cuts 48mm, and with construction stock normally coming in slightly shy of 50mm nowadays, it's a saw that will cover general first fix as well as the finer side of things in the second fix arena.

Alongside this, the saw is very light, just 14.5kg and for me that is a big bonus; some of the mitresaws on the market are beyond the realms of portability both in size and weight. However, despite the lighter weight the build quality isn't compromised; it's a robustly built machine, only the motor housing and handles are in ABS plastic with the remainder of the saw utilising metal components to ensure its durable enough to withstand the day to day bashing around if you are looking for a saw to take to site. I particularly like the use of a metal lower guard; often these are plastic and prone to damage.

"So, putting the saw through its paces, it's a breeze to use."

The pullover is sprung so you pull against the spring that automatically returns the saw head back to a parked position after a cut. To make the cut a large paddle in front of the handle is squeezed to release the lower guard and the head to plunge, and the resistance from both the springs and the paddle is low so the cuts can be made without fighting against them"

Both the compound tilt and standard mitre functions are easy to operate and equally easy to lock, the compound tilt using a large Bristol lever at the rear that gains a 45 degree tilt to the left but there's also an override function that gives you 48 degrees maximum as well as a negative -3 degree tilt to the right which is useful for ensuring the face of any butting work is crisp and tight. Combining the tilt and mitre functions for compound cutting means the fences need to be slid back accordingly, but both stay on board to continue to give the work maximum support. I made plenty of test cuts, predominantly in 100x50mm stock to see how it coped on deeper material as well as wider thinner veneered board, and that meant a lot of dust. The dual outlets need a dedicated adaptor to close it down to one outlet, and you have to buy that separately. I never had a suitable outlet to hand but from the test cuts I made outdoors, the dust ejected directly through both ports indicate it will certainly pick up a lot of the waste produced.

"Battery stamina is obviously going to be the main issue, but after around 50 or so chops in succession on my test 100x50 stock alongside the other cuts the battery lights still showed 2 lights out of four"

With it being part of the Milwaukee® 18v platform, if you are on board already then you will likely have a spare one ready to go or on charge while you work.

Even if you aren't, this saw is well worth a look as a standalone with a couple of batteries; it hits a niche where you could easily buy it to fill the void that the other manufacturers don't have.

★★★★★ **5/5 - Value Money**
★★★★★ **4.5 / 5 - Performance**

JOB SITE SOLUTIONS

How often do you really get the time to find out about new products in the power tool industry? Maybe at the occasional trade show or when you are visiting the local tool shop?

Milwaukee® understands that as a professional you rely on your tools to make money and can't afford to be let down or to not be kept up to date with the latest industry trends. Whilst we have always prided ourselves on delivering a great after sales service, we know that we can go even further by offering an equally exceptional pre-sales service. Our Job Site Solutions team provide a way for us to help you to see what is available - helping to make your job easier, faster and better.

This is why Milwaukee® has launched a new initiative in the United Kingdom Power tool market with a dedicated Job Site Solutions Team.

Working with core trades Builders, Plumbers, Carpenters, Electricians, the Automotive sector, the Agricultural sector, maintenance sector and HVAC, the JSS team are here to offer advice and right around the country. We aim to have the best industry knowledge available to help you know which tool is right for you.

BE NUMBER 1 ON THE JOBSITE

ARTICLE NO. **4933447143**

Also available in 0-version (4933447132).

£199.00 EXC. VAT

FEATURES:

- Milwaukee® designed and built brushless POWERSTATE™ motor delivers to 160 Nm of torque and up to 25% faster application speed
- REDLITHIUM-ION™ battery technology delivers up to 2x more run time, up to 2x more battery life and operates down to -20°C temperature
- The Milwaukee® digital DRIVE CONTROL™ allows the user to shift between two different speed and torque settings to maximise application versatility
- REDLINK PLUS™ intelligence system delivers the most advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- Slim, short, light design with no reactionary torque in use to maximise ease of use and user comfort
- State of charge indication with an on-board fuel gauge for optimised energy management
- Efficient and effective LED light work space illumination
- Supplied with 2x 2.0 Ah REDLITHIUM-ION™ battery pack, charger and kitbox

ARTICLE NO. **4933447187**

Also available in 0-version (4933447134).

£149.00 EXC. VAT

FEATURES:

- Milwaukee® high performance sub compact impact wrench measures 171 mm in length making it ideal for working within confined spaces
- REDLINK™ overload protection electronics in tool and battery pack deliver best in class system durability
- Heavy duty full metal gearbox and gears for superior durability and maximum torque
- 1/2" square drive for use with universal sockets
- Optimised handle for better control and improved grip
- Individual battery cell monitoring optimises tool run time and ensures long term pack durability
- On board fuel gauge and LED light - added user convenience and illumination in low lit working conditions
- REDLITHIUM-ION™ battery pack delivers up to 2x more run time, up to 20% more power, up to 2x more battery life and operates better down to -20°C than other lithium-ion technologies
- Supplied with 2x 2.0 Ah REDLITHIUM-ION™ battery pack, charger and kitbox

NEW **M12** PREMIUM HEATED JACKETS

USB CHARGER:

Charges portable electronic devices & fuel gauge displays remaining runtime

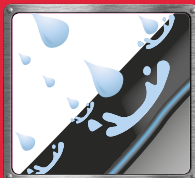

INSULATION:

Improved insulation minimizes weight while maximizing heat retention

WASHER/DRYER SAFE:

All models are 100% machine washable and dryable

WIND/WATER RESISTANT:

Internal storm flap & thermal knit fleece inner lining

3 SETTINGS:

High, Medium, Low for optimal comfort

FEATURES:

- Cold water technology - multi layered fabric actively warms the body & stimulates blood circulation
- 5 sewn in carbon fibre heating zones - distributes heat to core body areas and to the pockets
- Superior runtime - up to 8 hours of heat on single battery charge and slimmer design
- Easy touch heat controller - 3 heat settings: High, Medium, Low
- M18™ battery holder - sleek pocket design for minimal user interference
- USB power port to charge electrical devices- charge phones /MP3 players whilst on the move
- Hand pockets + added chest pocket - ideal for cell phone, iPod, MP3 player, etc storage
- Water and wind resistant - provides comfort and durability in harsh environment
- Expandable battery pouch for use with all M18™ REDLITHIUM-ION™ battery packs

- 4 m of cable allows the user to move easily around his work piece

FEBRUARY TO APRIL TRUCK TOUR REVIEW

To help support the launch of many new Milwaukee® products in 2014, the Milwaukee® Big Red Truck embarked on its 8 week tour of the UK and Ireland.

Kicking off in February, Big Red began the start of its journey in Lisburn, Ireland. Spending a whole week journeying across Ireland, the truck tour took to crossing the Irish Sea for the commencement of its second week kicking off in Cirencester.

For 7 further weeks Big Red then travelled up and down the UK visiting 35+ locations across Scotland, England and Wales. From Bristol to Inverness, Carlisle to Preston, Mansfield to Oswestry, Big Red continued painting the British Isles Milwaukee® red.

Lucky people who were able to attend the Truck Tour were the first to see brand new product releases, experience live tool demonstrations from the knowledgeable Milwaukee® Jobsite Solution Team, get hands on with all the latest tools and accessories and enjoy exclusive offers and Milwaukee® giveaways.

To conclude the mammoth 8 week Truck Tour, Big Red finished its journey at the opening round of the 2014 MCE Insurance British Superbike Championship at Brands Hatch. Milwaukee® kicked off its second year of sponsoring the Milwaukee® Yamaha team and the end of the Truck Tour saw Milwaukee® Yamaha

riders Tommy Bridewell and Josh Brookes take on Brands Hatch iconic race circuit.

THE MILWAUKEE® ONLINE REVOLUTION

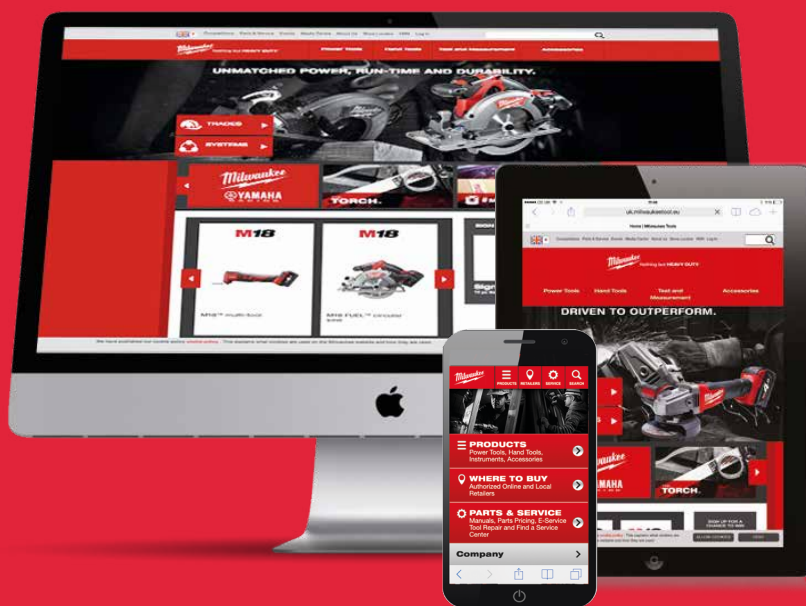

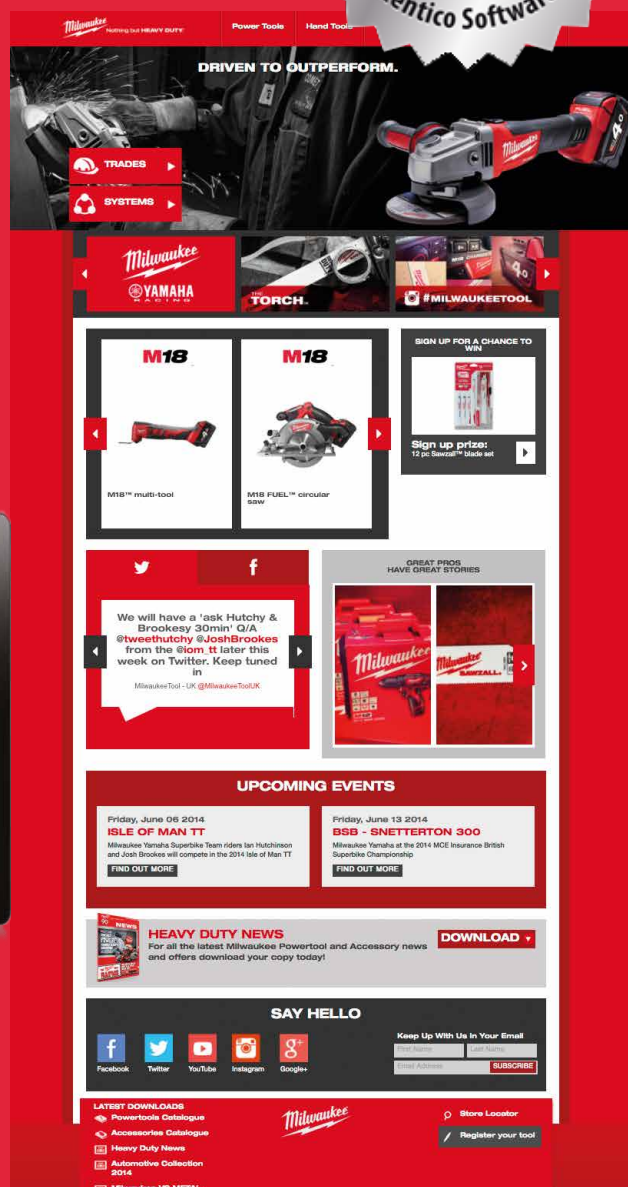

Setting 'sites' above the rest

At the start of 2014 **www.milwaukeetool.co.uk** was awarded as the winner of the 'Site of the Year' by Kentico Software Solutions. The site enables website visitors to compare products, write reviews, zoom in on individual features, find your nearest Milwaukee® stockist and receive online training from a suite of videos.

The customer service portal allows visitors to register their products for warranty and download the latest user manuals and information.

Launching the next generation

May 2014 saw the launch of the brand new Milwaukee® Tool second generation website with: improved search functionality; maximum ease of navigation; a brand new video section; and the launch of an exciting new media centre. Using the most up to date and innovative digital technology, **www.milwaukeetool.co.uk** steps up to the next level across desktop, tablet and mobile with a fully responsive web platform that allows users to access the latest Milwaukee® information both on and off the jobsite.

END USER CORNER FOCUS: AUTOMOTIVE

“ The Milwaukee® ¾” Wrench takes off all of the nuts of a lorry with 10 nuts to a wheel and 6 wheels in total and the battery still has charge left in it. Best machine ever used. ”

Paul Mobile Tyre fitter

“ We have only used air tools for decades. We could never have imagined a cordless tool would have so much power and be so versatile. The run time is exceptional. ”

Terry MOT Centre

M18 CHIWF **M18 FUEL**

High torque impact wrench

“ I use the ½” Wrench everyday its 2nd to none the power to weight ratio is excellent its air powered quality in a cordless tool. I use the wrench a lot for rusty bolts & tractor wheels I can undo each bolt on a set of wheels on one battery charge. Fantastic! ”

Matt Farm Engineer

“ The fact that its cordless with so much torque is fantastic as we normally use air tools which then introduces trip hazards in the workshop. An advantage of the ¾ inch gun is that they sometimes have to do work out onsite on the docks and take the air tools and a compressor with them, now that they have used the Milwaukee® gun it now stops them from having to carry so much equipment in their vehicles saves time and money. ”

Adam Phase Planning Manager for the servicing of all the vehicles on Heysham Docks / Qualified Mechanic

“ The Milwaukee® AP14 1450W Polisher has performed very well, The anti-tangle long cord works fantastically well and all of the variable speeds seem just right. The weight of the machine is like no other on the market that I've used its perfectly balanced and the rubber protective coating that surrounds the machine makes it a real pleasure to hold. ”

Chris
The Mot and Repair Centre

“ The Milwaukee® Polisher is great, lightweight and no loss of speed when polishing with good balance. The PUR cable is a fantastic feature it doesn't twist or tangle and no harm scratching the car. ”

Mario Car body repairs

AP14-2 200E
automotive polisher

**NO. 1 ON THE JOBSITE...
NO. 1 ON THE GRID**

With Milwaukee® Tools entering its second year as the main sponsor of the Milwaukee® Yamaha team, it has also seen the launch of a dedicated Milwaukee® Yamaha area of the website.

Keep up to date with the Milwaukee® Yamaha riders as they take to the track and roads, see the latest news and photos and experience exclusive Milwaukee® Yamaha race day videos. The Milwaukee® Yamaha site can be used on mobile allowing you to see the latest news as and when it happens.

MILWAUKEE® Superfans out in force

Monday 21st April 2014 kicked off the 1st round of the MCE Insurance British Superbike Championship at Brands Hatch. The Milwaukee® Big Red Truck and the Milwaukee® Spiderdome saw hundreds of Milwaukee® Superfans descend to the trade area for their chance to meet & greet Milwaukee® Yamaha riders Tommy Bridewell & Josh Brookes. The first 500 fans to reach the area were then given a signed race print from the riders plus a Milwaukee® Yamaha T-Shirt.

The next round of the MCE Insurance British Superbike Championship took place at Oulton Park from 3rd May – 5th May 2014. 250 lucky Milwaukee® Superfans were able to receive signed prints from the Milwaukee® Yamaha riders, a Milwaukee® Yamaha T-Shirt and Milwaukee® Yamaha Beanie Hat.

LAPS MEAN PRIZES

2014

TAKE THE CHALLENGE TODAY!

LAPS MEAN PRIZES gives you the chance to test your skill and nerve against other competitors and offers a great chance to WIN some fantastic prizes!

Page

29

For your chance to WIN EXCLUSIVE PRIZES:
Go to www.milwaukeeetool.co.uk/lapsmeanprizes to play.

Simply put in the fastest lap on our bike simulation and hope it is good enough, not just get onto the leaderboard, but to stay there. There will be no limit to the number of times you can try – so hone your skills and remember – the more you practise, the luckier you get.

Races will last two weeks and after that, the 1st, 2nd and 3rd prizes will be awarded and a new leaderboard will come into play. IN ADDITION – the best overall time will remain in place so that at the end of the promotion we will award our LAPS MEAN PRIZES champion for 2014. **Good luck..**

LAPS MEAN PRIZES
champion for 2014 will win:
M18™ 6 Piece Kit PLUS
2 x British Superbikes 2015
Hospitality Tickets

2

Milwaukee Toolbox,
Yamaha Fleece & Cap

1

M12BD-202
M12™ Compact
Screwdriver
(2 X 2.0 AH BATTERY)
Yamaha Jacket & Cap

3

Yamaha Polo &
Drawstring bag

Competition runs from 01st July – 01st December 2014. Any submissions outside of this date will not be counted. T&C's Apply. This competition is limited to UK and Ireland only.

NEW

M18 FUEL CIPW RUBBER BOOT

ARTICLE NO. 49162754

£40.00 EXC. VAT

FEATURES:

- Form-fitting, lightweight design protects the tool and work surface while adding minimal size or weight to the tool.
- Flexible material allows for easy install and removal.
- Durable proprietary rubber designed to withstand corrosive materials commonly found in maintenance environments.

Fits:

M18™ FUEL™ Compact Impact Wrenches
M18 CIW Impact Wrench

NEW

M18 FUEL HIPW RUBBER BOOT

ARTICLE NO. 49162763

£65.00 EXC. VAT

FEATURES:

- Form-fitting, lightweight design protects the tool and work surface while adding minimal size or weight to the tool.
- Flexible material allows for easy install and removal.
- Durable proprietary rubber designed to withstand corrosive materials commonly found in maintenance environments.

Fits:

M18™ FUEL™ High Torque Impact Wrenches
M18 CHIW Impact Wrench

NEW SHOCKWAVE™ IMPACT DUTY HOLES AW

FEATURES:

Impact resistant

- Designed for use with high speed impact drivers
- 1/4" Hex shank for direct fitment into impact drivers
- Makes one hand drilling possible – no torque reaction when it snags

Fastest

- 40% faster than standard holesaws
- Slim 0.6 mm thin kerf design for less friction and faster drilling
- Constant 8 Tpi tooth geometry the optimum for thin sheet metal drilling

Lifetime

- 8% Cobalt for best durability and lifetime

Ergonomics

- Durable one piece construction (arbor & cup) – ready for use, no need to change arbors. Time is money
- Internal ejection spring for easy plug removal

IMPACT DUTY

NEW

DIAMOND PLUS™ WET/DRY DRILLS AND HOLESAWS

Diamond grit edge holesaws have been specially developed for professionals that need to drill in extremely hard materials such as porcelain/gres/quarry tiles, cast iron or fibreglass where it is increasingly difficult to drill with conventional holesaws. These holesaws guarantee excellent performance and superior life time even in the hardest of materials.

FEATURES:

- o **Water starved:** These holesaws only require limited water supply unlike conventional diamond drills that require a continuous flow of water. Just dip the drill bit or holesaw into water at the start of each hole to be cut and thereafter every 5 second cut duration
- o **Clean holes:** Drills clean, precise holes without any perimeter scratches
- o **Lifetime:** To ensure long lifetime, we use high grade diamond for fast cutting and a superior brazed bond matrix to give best durability
- o **Durability:** Tough alloy body which does not bend or distort easily
- o **Easy slug ejection:** offset slug ejection slots for greater leverage when removing tight slugs
- o **Versatile:** Can be used either on angle grinders with relevant adaptor or with a drill

APPLICATION AREAS:

MATERIAL	SUITABILITY
Ceramic tiles – all types hard and soft: Porcelain / Gres / Granite / Quarry / Terrazzo / Artificial stone / Terracotta / Agglomerate / Glazed	✓
Cast iron	✓
Fibreglass / GRP (Glass reinforced plastic) / Perspex	✓

INKZALL™ MARKERS

FEATURES:

Range

- Fine tip INKZALL™ – perfect for all marking applications on construction site and office
- Stylus fine tip INKZALL™ – all alu body

Durable Tip

- Stays sharp, doesn't mushroom or push back under pressure
- Wear resistant tip – acrylic nib ideal for rough surfaces such as OSB and concrete
- Marker continues to write after 72+ hours of cap off time

Universal use

- For use on concrete, wood, metal, plywood, OSB, plastic
- Can be used on wet, oily, dusty, rusty, with debris surfaces
- Quick dry time – reduced smearing markings on PVC, metal surfaces

Ergonomics

- Hard cap clip – can be clipped to the construction site cap, trousers, overalls
- Easy open cap for one hand operation
- Hole to attach lanyard, e.g. to attach the pen to the touch screen device
- Anti-roll design – body design for better grip when writing
